Applied Optoelectronics Highlights WDM-PON Products at FTTH Conference

SUGAR LAND, Texas, June 16, 2014 (GLOBE NEWSWIRE) -- Applied Optoelectronics, Inc. (Nasdaq:AAOI), a leading provider of fiber-optic access network products for the cable broadband, internet data center, and fiber-to-the-home markets, will attend the **Fiber to the Home (FTTH) Conference** taking place on June 23-25 in Fort Lauderdale, Florida. At the conference, AOI will feature its small form-factor pluggable transceiver designed for operation in colorless Optical Networking Terminals (ONTs) used in Wavelength Division Multiplexed Passive Optical Networks (WDM-PONs).

Visit us at the FTTH Conference at booth #216 for inquiries or set up an appointment with Willis Chen at wchen@ao-inc.com.

About Applied Optoelectronics

Applied Optoelectronics Inc. (AOI) is a leading developer and manufacturer of advanced optical products, including components, modules, and equipment. AOI's products are the building blocks for broadband fiber access networks around the world, where they are used in the CATV broadband, internet datacenter, and fiber-to-the-home markets. AOI supplies optical networking lasers, components and equipment to tier-1 customers in all three of these markets. In addition to its corporate headquarters, wafer fab and advanced engineering and production facilities in Sugar Land, TX, AOI has engineering and manufacturing facilities in Taipei, Taiwan and Ningbo, China.
