

INVESTOR PRESENTATION

FIRST QUARTER 2024

Nasdaq: AAOI

Forward Looking Statements & Non-GAAP Financial Measures

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as "believe," "may," "estimate," "continue," "anticipate," "intend," "should," "could," "would," "target," "seek," "aim," "predicts," "think," "objectives," "optimistic," "new," "goal," "strategy," "potential," "is likely," "will," "expect," "plan" "project," "permit" or by other similar expressions that convey uncertainty of future events or outcomes. These statements include management's beliefs and expectations related to our outlook for the second quarter of 2024. Such forward-looking statements reflect the views of management at the time such statements are made. These forward-looking statements involve risks and uncertainties, as well as assumptions and current expectations, which could cause the company's actual results to differ materially from those anticipated in such forward-looking statements. These risks and uncertainties include but are not limited to: reduction in the size or quantity of customer orders; change in demand for the company's products due to industry conditions; changes in manufacturing operations; volatility in manufacturing costs; delays in shipments of products; disruptions in the supply chain; change in the rate of design wins or the rate of customer acceptance of new products; the company's reliance on a small number of customers for a substantial portion of its revenues; potential pricing pressure; a decline in demand for our customers' products or their rate of deployment of their products; general conditions in the internet datacenter, cable television (CATV) broadband, telecom, or fiber-to-the-home (FTTH) markets; changes in the world economy (particularly in the United States and China); changes in the regulation and taxation of international trade, including the imposition of tariffs; changes in currency exchange rates; the negative effects of seasonality; the impact of the COVID-19 pandemic on our business and financial results; and other risks and uncertainties described more fully in the company's documents filed with or furnished to the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2023 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2024. More information about these and other risks that may impact the company's business are set forth in the "Risk Factors" section of the company's quarterly and annual reports on file with the Securities and Exchange Commission. You should not rely on forward-looking statements as predictions of future events. All forward-looking statements in this press release are based upon information available to us as of the date hereof, and qualified in their entirety by this cautionary statement. Except as required by law, we assume no obligation to update forward-looking statements for any reason after the date of this press release to conform these statements to actual results or to changes in the company's expectations.

In addition, this presentation includes non-GAAP gross margin, non-GAAP net income (loss), adjusted EBITDA, and non-GAAP earnings per share, which eliminate the impact of items that we do not consider indicative of our overall operating performance. Non-GAAP financial measures are not intended to be considered in isolation or as a substitute for results prepared in accordance with GAAP. A reconciliation between our GAAP and non-GAAP measures, as well as a discussion of why we present non-GAAP financial measures are included in our earnings press release that is available on our website and the appendix of this presentation.

Industry and Market Data

The information contained herein includes information provided by third-parties, such as market research firms. None of the Company, its affiliates or any third-parties that provided information to the Company (i) guarantee the accuracy, completeness, timeliness or availability of any information nor are they (ii) responsible for any error or omission (negligent or otherwise), regardless of the cause or the result obtained from the use of such content nor do they (iii) give any express or implied warranties, including, but not limited to, any warranties of merchantability or fitness for a particular purpose or use, and they expressly disclaim any responsibility or liability for direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees or losses (including lost income or profits and opportunity costs) in connection with the use of the information herein.

INVESTMENT HIGHLIGHTS

- | A Leader in Advanced Optics
- | Dynamic Markets
- | Marquee Customers
- | Proprietary Manufacturing
- | Diversifying Customer Base

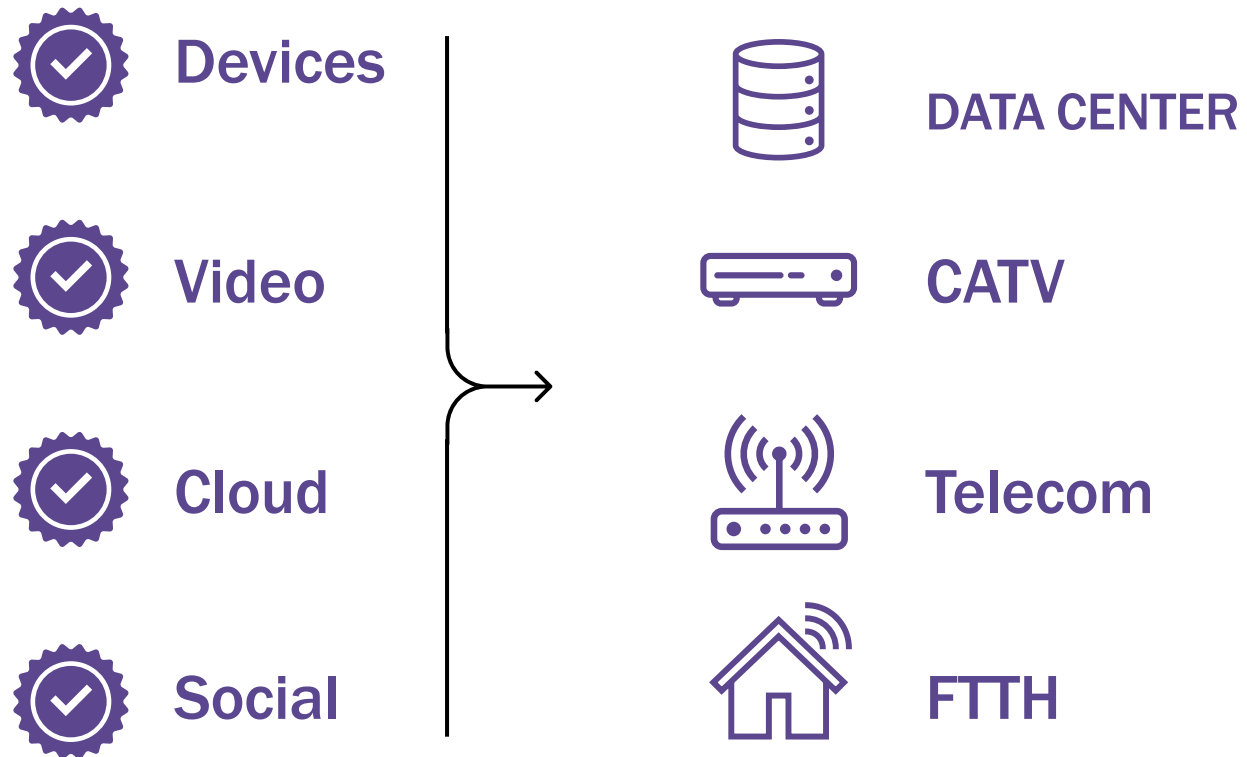

**A leading provider of optical
access products that enable the
gigabit age**

Q1 2024 Highlights and Outlook

- Revenue of \$40.7 million, below our guidance range
 - Decrease in revenue was largely driven by the combined effects of the Lunar New Year holiday in our Asian factories, along with some price reductions which took effect in the quarter
 - Revenue from 100G products increased 33% year-over-year, while revenue for 400G products more than doubled in the same period
- Non-GAAP Gross Margin of 18.9% vs. 23.2% in Q1 2023, below our guidance range, due to differences in product mix and price reductions
- Second Quarter 2024 Guidance
 - Revenue in the range of \$41.5 million to \$46.5 million
 - Non-GAAP gross margin in the range of 25.5% to 27.5%
 - Non-GAAP net loss in the range of \$11.6 million to \$13.5 million, and non-GAAP loss per share in the range of \$0.29 to earnings of \$0.34 using approximately 39.2 million shares
- Based on our current forecast and very constructive customer interactions, we remain very positive on improvements in 2H24

Bandwidth Demand Drives Revenue

* CAGR calculated from 2013 through 2023.

Four End-Markets With Strong Demand Drivers

Cable Television

- DOCSIS 3.1 & 4.0 upgrade cycle
- International market opportunities
- Continued outsourcing of design and production

Datacenter

- Increasing size of datacenters
- Higher-speed interconnect - 1G to (10G/40G/100G/200G/400G/800G)
- Continuous need to expand, refresh and replenish

Telecommunications

- 5G LTE deployment
- Backbone network for datacenter interconnect
- Aging access networks in need of rebuild

Fiber-to-the-Home

- 10/25 Gbps FTTH networks to replace 2.5Gbps
- Telecom carriers need to fiberize to compete with CATV, new entrants
- Greenfield economics favor fiber deployment

Growth Expected in Datacenter Market

Total High-Speed (100G or greater) Market to Exceed \$10 Billion in 2027

Source: Omdia

© 2022 Omdia

- Source: High-speed (from 100G to 800G) optical modules by data rate Forecast Report, 2021 - 2027 – Omdia | 2022
- Historical and future data is estimated, based upon a methodology developed by Omdia research

DATACENTER MARKET CHARACTERISTICS DIFFER FROM CHARACTERISTICS OF TELECOM OPTICAL COMPONENT MARKET

Vertical Integration & In-house Manufacturing

DATACENTER MARKET

- ✓ Rapid product development cycles favor controlling a substantial part of the manufacturing process
- ✓ Large production volume/relatively low diversity enables rapid ROI on factory equipment
- ✓ Integration of manufacturing process enhances efficiency

TELECOM MARKET

- ✓ Telecom applications have much longer production cycles
- ✓ Small volume/high diversity favors outsourcing
- ✓ Initial costs of integration are high, and only economical with high production volume

Current 400G Transceiver Form-factors

Considerations for Designers:

- Backward Compatibility
- Connector Termination
- Latch Mechanism
- Mating Process
- Protruding area safety
- Electrical/optical breakout
- Thermal dissipation
- Common management interface specification

Reach Distance	Data Center Unique Spec	IEEE Standards	100G single Lambda MSA
70m for OM3, 100m for OM4	-	400G SR8*	-
	-	400G SR4.2	-
500m	-	100G DR*	-
	-	400G DR4*	-
2km	-	-	100G FR*
	-	-	400G FR4*
10km	400G DR4+*	-	-

* In development by AOI for customer sampling

5G Requirements for Front/Mid-Haul Optics

Small-Cell Proliferation and C-RAN Evolution Is Expected to Create Need for New Optical Solutions

25 Gbps/50 Gbps/100 Gbps transceivers needed

Front-Haul:

- Link remote radio head (RRH) to base station
- Distances typically several km
- 25 Gbps in SFP-28 form factor
- Outdoor RRH may require high-temperature optics

Mid-Haul:

- Longer distances typical in C-RAN (Cloud-Radio Access Network)
- 50 Gbps/100Gbps over 10+ km
- Typically standard commercial temperature range

VERTICAL INTEGRATION

A KEY
DIFFERENTIATOR

| Faster time to market

| Cost advantages

| High yield manufacturing

| Flexible capacity support

| Rapid response to customer & market demand

A Closer Look...

<p>CRYSTAL GROWTH (Epitaxy)</p>	<p>AUTOMATION</p>	<p>LIGHT ENGINE ASSEMBLY</p>
<p>AOI's Differentiation:</p> <p>Combination of proprietary MBE and MOCVD processes</p>	<p>AOI's Differentiation:</p> <p>Custom-designed and proprietary production machinery</p>	<p>AOI's Differentiation:</p> <p>Robust silicon optical bench platform technology leveraged across 40G, 100G, 200G and 400G products</p>
<ul style="list-style-type: none"> • Improved high-temp and high-speed performance • Improved laser yield (low cost) • DFB performance adequate for many applications where competitors use EMLs • EMLs for long-distance inter-DC/telecom 	<ul style="list-style-type: none"> • Decreased per-chip testing cost • Lower scrap rate = higher yield • Scalable 	<ul style="list-style-type: none"> • Flexible manufacturing line between 40G /100G/200G/400G products • More efficient R&D spend • Decreased scrap rate • Lower equipment depreciation

A Closer Look...

Automated Robotic Test Stations Increase Throughput, Decrease Human Error in Handling

Automated Receiver Sub-Assembly Decreased Labor by 58% and Improved Quality Control

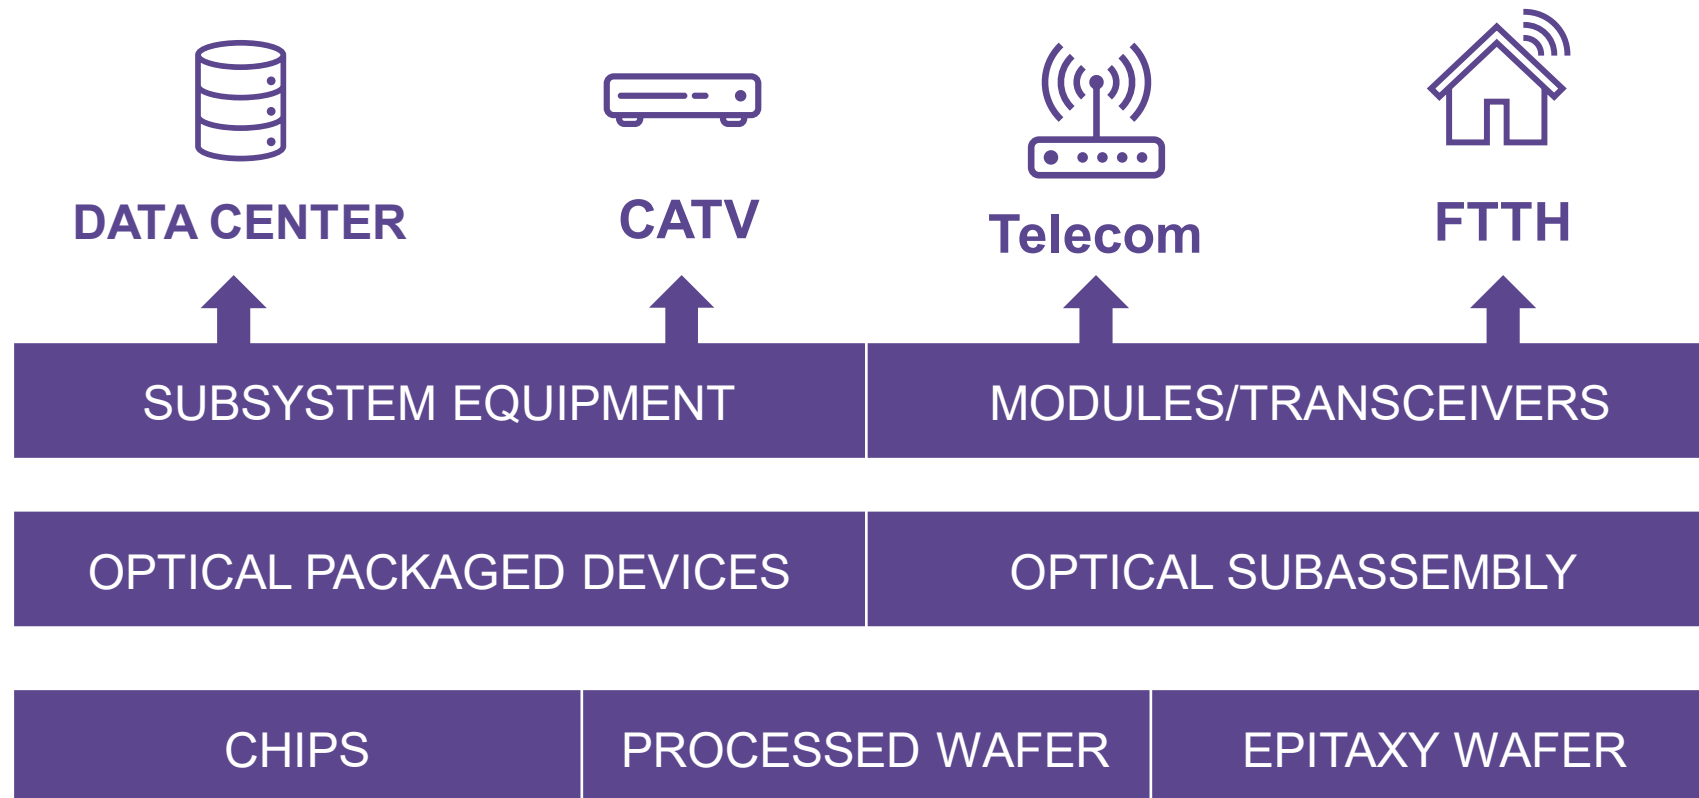

Automated Light Engine Final Assembly Decreased Labor by 85% and Improved Process Control and Quality

Vertical Integration replicated across markets

In-house production and development of advanced laser diodes and light engines speeds time to market

RESEARCH & DEVELOPMENT

- Excellent laser technology
- Proprietary Silicon Photonics Technology
- Strong R&D teams in all 3 sites from lasers, transceivers to equipment
- Customer NRE reimbursements

MANUFACTURING & OPERATIONS

- Experienced in high-volume manufacture
- Efficient supply chain
- Vertical integration from laser chips to transceivers to equipment with cost advantages

* As of 3/31/24

Financial Review

Financial Performance

ANNUAL REVENUE BY END MARKET

* Reflects a \$900 thousand credit issued to a customer, which is adjusted out of our non-GAAP revenue in Q4/2018. All other revenue is on a GAAP basis.

** Reflects a \$449 thousand credit issued to a customer, which is adjusted out of our non-GAAP revenue in Q4/2020. All other revenue is on a GAAP basis.

Recent Financial Performance

QUARTERLY REVENUE BY END MARKET

* Reflects midpoint of Q2 2024 guidance of \$41.5 million to \$46.5 million provided in Q1 2024 earnings press release on 5/9/24

Q1/24 Results

NON-GAAP*

\$ IN MILLIONS EXCEPT %	Q1/24
TOTAL REVENUE	\$ 40.7
CATV	\$ 8.7
DATACENTER	\$ 29.0
TELECOM	\$ 2.3
GROSS MARGIN	18.9%
OPERATING LOSS	\$ 17.1

TOTAL DEBT ⁽³⁾	\$67	\$70	\$35
STOCKHOLDERS' EQUITY	\$240	\$173	\$196

(1) Cash: Cash, cash equivalents, short-term investments, and restricted cash.

(2) Working Capital: Total current assets less total current liabilities.

(3) Total Debt: Short-term loans, notes and bank acceptances payable and total long-term debt. Convertible notes outstanding are expected to be settled in common stock, not cash, so are excluded from total debt.

INVESTMENT SUMMARY

| **A leader In Advanced Optics**

| **Focus on fast growing markets including hyperscale datacenters**

| **Marquee global customers**

| **Extensive internally developed technology**

| **Manufacturing expertise creates differentiation & sustains margin**

| **Operating model provides significant leverage**

NON-GAAP FINANCIAL MEASURES

We provide non-GAAP gross margin, non-GAAP net income (loss), adjusted EBITDA, and non-GAAP earnings per share to eliminate the impact of items that we do not consider indicative of our overall operating performance. To arrive at our non-GAAP gross profit used in the calculation of our non-GAAP gross margin, we exclude stock-based compensation expense, expenses associated with discontinued products, and non-recurring (income) expenses, if any, from our GAAP total gross profit. To arrive at our non-GAAP net income (loss), we exclude all stock-based compensation expense, expenses associated with discontinued products, non-cash expenses associated with discontinued profits, amortization of intangible assets, non-recurring expenses, unrealized foreign exchange loss (gain), non-GAAP tax benefit (expenses), and losses from the disposal of idle assets, if any, from our GAAP net income (loss). Included in our non-recurring expenses in Q1 2023 and Q1 2024 are certain non-recurring expenses related employee severance expenses (if any). Also included in our non-recurring expenses in Q1 2024, but not in Q1 2023, are certain non-recurring legal expenses associated with litigation and certain legal and advisory expenses associated with patent protection. In computing our non-GAAP income tax benefit (expense), we have applied an estimate of our annual effective income tax rate and applied it to our net income before income taxes. Our adjusted EBITDA is calculated by excluding depreciation expense, non-GAAP tax benefit (expense), and interest (income) expense, as well as the items excluded from non-GAAP net income (loss), from our GAAP net loss. Our non-GAAP diluted net loss per share is calculated by dividing our non-GAAP net loss by the fully diluted share count (for periods in which non-GAAP net income is positive) or basic share count (for periods in which our non-GAAP net income is negative). We believe that our non-GAAP measures are useful to investors in evaluating our operating performance for the following reasons:

- We believe that elimination of items such as amortization of intangible assets, stock-based compensation expense, non-recurring revenue and expenses, losses from the disposal of idle assets, unrealized foreign exchange gain or loss, and depreciation on certain equipment undergoing reconfiguration is appropriate because treatment of these items may vary for reasons unrelated to our overall operating performance;
- We believe that elimination of expenses associated with discontinued products, including depreciation and inventory obsolescence is appropriate because these expenses are not indicative of our ongoing operations;
- We believe that excluding non-GAAP income taxes allows comparison with prior periods and provides additional information regarding the generation of potential future deferred tax assets;
- We believe that non-GAAP measures provide better comparability with our past financial performance, period-to-period results and with our peer companies, many of which also use similar non-GAAP financial measures; and
- We anticipate that investors and securities analysts will utilize non-GAAP measures as a supplement to GAAP measures to evaluate our overall operating performance.

NON-GAAP FINANCIAL MEASURES

A reconciliation of our GAAP net income (loss), GAAP total gross profit, GAAP earnings (loss), and GAAP earnings (loss) per share for Q1 2024 to our non-GAAP net income (loss), non-GAAP total gross profit, Adjusted EBITDA, and earnings (loss) per share, respectively, is provided below, together with corresponding reconciliations for Q1 2023. A reconciliation of our GAAP net income (loss), GAAP total gross profit, GAAP earnings (loss), and GAAP earnings (loss) per share for Q4 2023 and FY 2023 to our non-GAAP net income (loss), non-GAAP total gross profit, Adjusted EBITDA, and earnings (loss) per share, respectively, was provided in our Q4 2023 and FY 2023 earnings release.

Non-GAAP measures should not be considered as an alternative to net income (loss), earnings (loss) per share, or any other measure of financial performance calculated and presented in accordance with GAAP. Our non-GAAP measures may not be comparable to similarly titled measures of other organizations because other organizations may not calculate such other non-GAAP measures in the same manner. We have not reconciled the non-GAAP measures included in our guidance to the appropriate GAAP financial measures because the GAAP measures are not readily determinable on a forward-looking basis. GAAP measures that impact our non-GAAP financial measures may include stock-based compensation expense, non-recurring expenses, amortization of intangible assets, unrealized exchange loss (gain), asset impairment charges, and loss (gain) from disposal of idle assets. These GAAP measures cannot be reasonably predicted and may directly impact our non-GAAP gross margin, our non-GAAP net income and our non-GAAP fully-diluted earnings per share, although changes with respect to certain of these measures may offset other changes. In addition, certain of these measures are out of our control. Accordingly, a reconciliation of the non-GAAP financial measure guidance to the corresponding GAAP measures is not available without unreasonable effort.
